ABSTRACT

This directory provides information on organizations, government agencies, institutions of higher education, periodicals, publishers, and other resources useful to persons involved in the education of American Indian and Alaska Native students. Section 1 describes approximately 80 international, national, and multistate nongovernmental organizations, listed alphabetically in four categories: advocacy, networking, and reform; research, development, technical assistance, and training; funding and sponsorship; and youth leadership, mentoring, and service. Each entry includes contact information and a brief description. Section 2 lists and describes federal programs and agencies, including the 26 Education Line Offices of the Bureau of Indian Affairs (BIA), programs of the BIA Office of Indian Education Programs, selected offices of the U.S. Department of Education, regional educational laboratories, comprehensive regional assistance centers, Native American programs in the U.S. Department of Health and Human Services and the U.S. Department of Labor, and committees of interest in Congress. Section 3 provides contact information and brief descriptions for 32 publishers and periodicals and lists 8 other useful directories and guides related to American Indian and Alaska Native education. Section 4 lists state government and nongovernment organizations by state. Section 5 lists and describes programs at colleges and universities offering Native studies, Native language instruction, supportive services, or scholarships for Native students. Index covers primarily programs and agencies but also includes over 50 Native American languages being taught across North America. (SV)

PREFACE

Compiling directories is unglamorous but useful work we think. We at the ERIC Clearinghouse on Rural Education and Small Schools have produced several editions of this directory now. Each has gotten larger and handier to use as we have become more experienced in their production. We would like to point out several features in this new edition:

- We have organized the sections this time so they are a little easier to browse—especially in the first two sections, which describe national nongovernment organizations and federal government programs respectively.
- We have done much more indexing, and this time we have listed page numbers instead of section numbers. We did some subject indexing, but mostly, entries are indexed by state or organizational names.
- Regarding subject indexing—let us point out one subject we were especially pleased to shed light on: The study of American Indian and Alaska Native languages. If you look in the index under "Native language programs or courses," you will find an astonishingly long list of Native languages that are being taught at colleges and universities across North America. We do not claim this list is complete, but it is a good beginning and we hope to find more programs as times goes by.
- Section 5 of this directory was developed with high school counselors and teachers in mind. We wrote to more than 400 colleges and universities who enroll substantial numbers of Native students and asked them what Native studies and language courses they offered. We also asked what sorts of support services and scholarship monies they provided to American Indian and Alaska Native students. Section 5 reflects what they told us.
- Finally, in developing this directory, we had to make choices about what to include. To keep the directory down to a size that would be affordable to most school and library budgets, we decided not to duplicate other existing directories that publish information at the tribal or municipal level. We have kept the focus, as much as possible, on multicounty, or larger areas. However, at the end of section 3, we have included sources—some of them free—for tribal and other directories. And, of course, we have published information only about organizations that have something to offer your efforts as educators, parents, and vocational trainers.

We have published what people have told us about their organizations. We have no way of checking the accuracy of the information they have provided about themselves, so nothing in this directory should be read as an endorsement by the Clearinghouse or the U.S. Department of Education. The contents of the directory reflect a rich array of activity—organizing, leading, administering, governing, publishing, broadcasting, and educating. If you are involved with a group that you think should be described in the next edition, fill out the form at the end of this directory and send it back to us.

I would like to thank all of those who responded to our letters, faxes, and telephone calls. Heather Beasley, a student intern from Harvard University, spent her summer doing most of the research for this effort. Three reviewers, Robin A. Butterfield, D. Michael Pavel, and Bob Swan, provided critical comments that greatly improved the final version. I owe thanks also to Velma Mitchell, Cindy Dawson, Mary Farley, and Berna Lanham, who helped proofread, make telephone calls, edit, and do all the other exacting work required in making sure everything in these pages is both readable and accurate. I thank all of them for their excellent work and dedication. --PCH

4 / ADVOCACY, NETWORKING, AND REFORM

Web Site: <http://www.essential.org/fairtest>

Description: FairTest is an advocacy organization dedicated to ensuring fairness, equity, and high quality in assessment instruments, practices, systems, and policies. FairTest believes that reliance on standardized testing undermines the quality of education. At the same time, standardized testing often creates and reinforces barriers to equal opportunity by perpetuating social and structural inequities based on race, class, income, gender, language, culture, and disability. To accomplish its mission, FairTest promotes assessment of students, workers, and others that is fair, open, accurate, relevant, accountable, and educationally sound, and works to end the abuses, misuses, and flaws of standardized testing. To that end, FairTest organizes testing reform campaigns, educates the public, provides technical assistance, and serves a national clearinghouse for assessment information.

Description: The American Indian College Fund was launched in 1989 to raise funds from corporations, foundations, and individuals for the urgent scholarship needs of students at the 29 American Indian colleges. Run for and by Native Americans, the colleges serve more than 18,000 full- and part-time students each year. In addition, the colleges provide desperately needed services to their surrounding communities, such as health centers, libraries, day care facilities, economic development ventures, and cultural preservation projects. From Michigan to California and Washington State to New Mexico, these colleges play a vital role in the future of American Indian peoples, and ultimately, in the future of all Americans.

American Indian Graduate Center

4520 Montgomery Blvd., NE, Ste. 1-B
Albuquerque, NM 87109-1291
Contact: Dr. Joseph Martin, President
Telephone: 505/881-4584
Fax: 505/884-0427

Description: The American Indian Graduate Center (AIGC) of Albuquerque, New Mexico, is a national nonprofit organization that provides graduate fellowships for American Indian and Alaska Native students from federally recognized tribes. AIGC was established in 1969 to assist American Indian college graduates who want to continue their education at the

masters or doctorate levels and need financial assistance. American Indians continue to be the least represented of all minority groups in the country in medicine, business, law, the sciences, and other fields requiring advanced degrees. AIGC was founded to help open the doors to graduate education for American Indians, and to help tribes obtain the educated Indian professionals they need to become more self-sufficient and exercise their rights of self-determination.

SEDL's mission is to find and share effective solutions for the most urgent problems facing educational systems, practitioners, and decisionmakers in the southwestern United States. Services include research and development, information dissemination, training, and technical assistance. SEDL's particular emphasis is on ensuring educational equity for minority children, children who live in poverty, or children with disabilities. SEDL pursues this mission through diverse project and funding arrangements. One of its projects, the Network for Native Language Education, focuses on gathering and disseminating information on strategies and resources for teaching and learning Native languages that are Indigenous to SEDL's five-state region.

Description: *The Journal of the National Center* offers a sensitive and authoritative source of information to readers unfamiliar with important issues facing American Indians and Alaska Natives, in addition to providing researchers of all disciplines with a better understanding of current mental health issues and concerns of this population. The journal can be useful to mental and public health providers and administrators, tribal health program staff, social workers, and those who work within the court systems, all of whom evaluate service delivery systems. The journal also provides valuable data for proposal writing, as well as for program planning and evaluation. Local understanding of approaches to etiology, disease, social functioning, health, and healing is a rich source for creating modern alternatives for mental health services. As part of the Center's commitment to research and development in American Indian and Alaska Native mental health, the editors encourage research in areas where little is known.

Description: *Winds of Change* is a quarterly magazine published by AISES Publishing, Inc., for the American Indian Science & Engineering Society. The magazine is especially for American Indians; it focuses on career and educational advancement. Key features include American Indian role models; stories of personal achievement and leadership; educational programs, scholarship opportunities; corporate contributions and opportunities; career develop-

ment and job position listings; and columns, news, book reviews and articles that bridge traditional and modern perspectives on Native issues. The magazine also publishes an *Annual college guide for American Indians* in September

of each year. The guide features articles on students, college programs, financial aid, and statistics on Indian retention and graduation rates from the nation's colleges and universities.

Other Useful Directories and Guides Related to American Indian and Alaska Native Education

In the *Native Education Directory* we have not included tribal information, which is updated each year and available free from the Bureau of Indian Affairs. Nor have we included information about museums, parks, powwows or other potentially fruitful sources for experiential learning and curriculum materials about historic and contemporary American Indians and Alaska Natives. In the interest of keeping the directory compact and affordable, we have tracked down information we think it might be harder for educators to obtain on their own, trying not to duplicate other readily available directories. The guides and directories described below are rich sources of additional information.

The following three directories are available from the **U.S. Department of the Interior, Bureau of Indian Affairs**, Mail stop 3512 MIB Code OIE-13, 1849 C Street, N.W., Washington, DC 20240-0001; telephone 202/268-7387 (Mr. Fred Bennett):

Office of Indian Education Programs: Education Directory (updated yearly), 67 pp., free.

This directory includes contact information for BIA central office staff, Education Program offices, area/agency schools, postsecondary schools, tribally controlled community colleges, Johnson O'Malley coordinators by area and agency, special education coordinators by area and agency, area offices, effective schools project participants, and family and child education coordinators.

Office of Indian Education Programs: Finger Tip Facts (updated yearly), 27 pp., free.

This booklet includes background information about the Office of Indian Education Programs of the Bureau of Indian Affairs, including its mission statement, long range goals, Goals 2000 panel members, statistical information about students served and schools operated and funded, as well as descriptions and contact information for Education Line Offices, and each of the programs and services offered by the OIEP.

The Tribal Leaders Directory (updated yearly), 81 pp., free.

This directory includes listings of addresses, telephone numbers, and fax numbers for superintendents/officers in charge of all BIA area and field offices, and for all federally-recognized tribal and village chairmen.

The following three guides are available from **Corporate Resource Consultants**, P.O. Box 22583, Kansas City, Missouri 64113-2583, telephone 800/268-2059:

Church Philanthropy for Native Americans and Other Minorities: A Guide to Multicultural Funding from Religious Sources, compiled by Phyllis A. Meiners and Greg A. Sanford, 1995, 280 pp., softcover, \$118.95.

This guide contains 67 grant programs and 34 loan programs available from Judeo-Christian sources for Native American and other multicultural secular organizations. Eleven denominations with national and state-wide programs of philanthropy for issues of self-determination, social justice, and economic development, are represented and are indexed by geographic and subject areas.

Corporate and Foundation Fundraising Manual for Native Americans. Third Edition, compiled by Hilary Henri Tun-Aiz and Phyllis A. Meiners, 1996, 288 pp., softcover, \$129.95.

This manual presents the CRC fund development system, a step-by-step guide to securing private sector grants. Activities such as nonprofit incorporation, proposal writing, prospect research, and the Internet are covered in detail. Sample forms and guidelines may be duplicated, providing unlimited access to tools essential for every fundraising office.

National Directory of Philanthropy for Native Americans, compiled by Phyllis A. Meiners, and Greg A. Sanford, 1992, 160 pp., softcover, \$69.95.

This sourcebook contains information on 39 private sector grantmakers; 24 foundations, 12 corporations and corporate foundations, and three religious institutions considered to be the most prominent funders of American Indian programs. Profiles include contact persons, sample grants, application deadlines, geographic limitations, special interests, and application procedures.

From the **Native American Cooperative**, P.O. Box 27626, Tucson, AZ 85726-7626; telephone 520/622-4900:

Native American Directory: Alaska, Canada, United States by Fred Synder, 1995, 800+ pp., softcover \$59.95 (plus \$6.00 shipping); library edition \$125.00 (plus \$6.00 shipping).

This directory covers Native organizations, government agencies, museums, cultural centers, arts and crafts dealers, powwows, advice about tracing Indian ancestry, basic statistical information, Native-own or operated broadcasters, film makers, performance groups, gaming operations, and more. The library edition also includes a 1993 U.S. Geological Survey wall map, a listing of all state and federally recognized tribes in the United States and Alaska, and more detailed information in some sections.

From **Todd Publications**, P.O. Box 633, Nyack, NY 10960; telephone 800/747-1056:

Reference Encyclopedia of the American Indian. 7th Edition, 1995, 884 pp. softcover \$75.00; hardcover \$125.00.

This sourcebook lists tribes, organizations, museums, libraries, schools, colleges, periodicals, financial aids, audiovisual aids, arts & crafts shops, government agencies, and more. Also includes Canadian tribes, organizations, periodicals, a bibliography of 4,500 in-print books, and biographies of more than 2,000 prominent Native Americans and non-Indians active in Indian affairs. Also includes 1,500 Indian education programs in public schools.

Description: SUNY Potsdam was originally established in 1816 and continues its tradition of teacher preparation, although the liberal arts are at the core of the curriculum. The undergraduate enrollment is about 5,600 students from throughout New York State. The student body represents the greatest geographical diversity of any 4-year college in the SUNY System. About 75 percent of the students participate in intramural sports, and there are seven women's and five men's varsity sports teams. Roughly two thirds of all students live on campus; freshmen, sophomores, and juniors are required to do so. The 240-acre campus is in the village of Potsdam and is a short walk from the downtown area. There are about 100 extracurricular groups and activities, including fraternities and sororities, student government, yearbook and newspaper staffs, a literary magazine, a broadcast FM radio station, and musical and performing arts groups.

Description: In 1991, the legislature of the Menominee Nation voted to establish a tribal college using part of the tribe's gaming revenue. The tribe has many years' experience in gaming, having built its casino before many other tribes. The Menominee Nation is also home to a tribally owned timber industry that has earned international acclaim for its sustainable forestry practices. The College prepares students not only for careers in timber, hospitality and gaming, but also in natural resources, law enforcement, early childhood education and general studies. Various vocational certificates are offered, and health and tribal management programs are to be added soon. Working with Menominee Tribal Enterprises, the college formed the Forestry Sustained Yield Institute to share the tribe's belief that trees must be conserved for future generations. The institute conducts research and sponsors workshops and seminars for students, visiting scholars, and environmentalists.

Native studies courses offered: Menominee cultural values play an important role in every

aspect of the curriculum—even in timber and gaming classes.

Native language programs or courses: Of particular interest is the development of written Menominee literature by a tribal elder for use in history, language, and oral literature classes.

Description: In May 1976, the Federation of Saskatchewan Indian nations entered into a federation agreement with the University of Regina, creating the Saskatchewan Indian Federated College (SIFC). The

Agreement provides for an independently administered university college, the mission of which is to serve the academic, cultural, and spiritual needs of First Nations students. SIFC is a member of the Association of Universities and Colleges of Canada (AUCC) and is fully accredited. Since 1983, the SIFC has entered into twelve agreements with Indigenous peoples' institutions in Canada, South and Central America, and Asia.

Native language programs or courses: The following academic departments offer a variety of Native Studies: Indian Education; Indian Fine Arts; Indian Languages, Literatures, and Linguistics; and Indian Studies.

Support services: The mission of the Student Services is to work together to encourage, guide, support, and promote the SIFC student endeavors in a respectful, caring, understanding, confidential, and cooperative manner.

Scholarships: The SIFC offers a variety of scholarships, awards, and bursaries. Students should check with the SIFC Student Services Office for detailed information.
